Keeping America Informed Federal Depository Library Program

A Program of the Superintendent of Documents
U.S. Government Printing Office (GPO)

- **Federal Depository Library Program (FDLP)** makes information produced by Federal Government agencies available for public access at no fee.
- **Access** is through 1,351 depository libraries located throughout the U.S. and its possessions, or, for online electronic Federal information, through GPO Access on the Internet.

Government Information at a Library Near You: The Federal Depository Library Program

The Federal Depository Library Program (FDLP) was established by Congress to ensure that the American public has access to its Government's information (44 U.S.C. §§1901-1916). For more than 140 years, depository libraries have supported the public's right to know by collecting, organizing, preserving, and assisting users with information from the Federal Government.

The Government Printing Office provides Government information products at no cost to designated depository libraries throughout the country. These depository libraries, in turn, provide local, no-fee access in an impartial environment with professional assistance. The collections contain information on careers, business opportunities, consumer information, health and nutrition, legal and regulatory information, demographics, and countless other subjects reflecting the activity of the Government, in print, microform, CD-ROM, and online electronic media.

Federal depository libraries are located in nearly every congressional district throughout the United States and its territories. Selective depository libraries tailor their selections of Government information products to their community's primary needs. Regional depository libraries receive all the products available through the program. Any member of the public can visit these depository libraries and use the Federal depository collections. Before visiting a depository library, call first to verify hours of operation.

The publications made available to the depository libraries, including Government electronic products, are cataloged in the Monthly Catalog of United States Government Publications. An electronic version of this catalog, going back to 1994, is available on the Web on GPO Access at <<http://www.gpo.gov/catalog>>. Once an information product is identified, a link is available to locate depository libraries that receive that product. The GPO Access Web site can therefore be used to determine what recent titles are available in the libraries, and which depository libraries have them.

Through cooperative collection development, interlibrary loan resource sharing, and the regional complete collections, the system provides service and access to all.
